

Foundation Support for Boys & Girls Club of El Dorado County Western Slope

Here is a Look at Our Recent Grant Awards

Club Kids Sum it Up

motorola
foundation

We're helping our members develop their science, technology and math skills through fun, hands-on programs like *Butterfly Quest and Cover your Bases* at our three sites. These programs are funded through the generosity of Motorola Foundation (as part of their Innovation Generation Grant Program) and the Ronald McDonald House Charities of Northern California (in cooperation with Diamond Pacific Industries and Pacific Coast Builders). Our technology improvements at our Pollock Pines and Cameron Park sites will provide greater access to hone their skills at those sites. These improvements have been funded through a grant from Sierra Pacific Industries.

Sierra Pacific Foundation
Growing Healthy Communities...

Outdoor Adventures

This year we will be launching an exciting new program focusing on outdoor exploration, the natural world, and our beautiful Sierra foothill environment. The kids have named it "Mountain Madness", and the program is funded by Recreational Equipment Inc.

Gardening Program in Pollock Pines

The members of our Pollock Pines clubhouse will be extending the growing season for their garden located at Emigrant Trail School. This gardening grant was provided by the California Department of Education.

Teen Career Development

Thanks to funding from Pacific Gas & Electric, our teens will get an extra "leg up" learning how to create resumes, practicing interview skills, and apply for real jobs with local employers.
